2020-2021 Student Feedback on Curriculum Report for Civil		Total students = 139			
	Excellent	Very good	Good	Average	Poor
Rate how challenging was the syllabus offered by the courses.	55	56	27	1	
Rate the appropriateness of the sequence of the courses provided in the curriculum.	60	51	25	3	
Rate the depth of the syllabus of the courses in the relation to the competencies expected by industry/current global scenarios.	50	62	15	12	
Rate the sequence of the modules/units in the courses	58	57	14	10	
Rate the adequateness of textbooks and reference books mentioned for the courses	65	48	15	11	
Rate the syllabus content of the courses in terms of burden on the students	55	58	14	12	
Rate the design of the courses in the terms of extra learning or self-learning	59	52	13	15	
Rate the flexibility in choosing the electives in relation to technology advancements	62	53	14	10	
Rate the percentage of the courses offering LAB components	61	54	13	11	
Rate the composition of the courses in terms of Basic science, Engineering science, Humanities, Discipline core, Discipline elective, Open elective, Project etc.?	58	57	14	10

Ideal Institute of Technology
At Post-Posheri, Taluka-Wada,
District-Palghar, Maharashtra - 421303.

Alumni Feedback points (1-10) (2020-21)

1. Are you able to apply the knowledge of mathematics, science and engineering fundamentals?
2. Are you able to analyze complex engineering problem using principle of mathematics, natural science and engineering science?
3. Are you able to use research-based knowledge and research methods?
4. Are you able to create, select and apply appropriate techniques, resources and modern engineering and IT tools?
5. Are you able to apply reasoning to assess societal, health, safety and legal and cultural issues?
6. Are you able to apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice?
7. Are you able to function effectively as an individual and as a member or leader in teams and in multidisciplinary settings?
8. Are you able to communicate effectively and write effective presentations?
9. Are you able to manage projects and its financing in multidisciplinary environments?
10. Are you able to engage in independent and life-long learning in the context of technological change

Program Exit Feedback (2020-21)

**Department of Civil Engineering****Program Exit feedback Report for CE-2020-21**

Sr. No.	Question	Excellent (4)	Very Good (3)	Good (2)	Satisfactory (1)	Poor (0)
1	Are you able to apply the knowledge of mathematics, science, and engineering fundamentals?	30	30	5	0	0
2	Are you able to analyse complex engineering problems using principles of mathematics, natural sciences and engineering sciences?	25	25	5	10	0
3	Are you able to design solutions for complex engineering problems that meet the specified needs public health and safety, and the cultural, societal and environmental considerations?	26	25	6	6	2
4	Are you able to use research based knowledge and research methods?	22	29	10	4	0
5	Are you able to create, select and apply appropriate techniques, resources and modern engineering and IT tools?	30	31	4	0	0
6	Are you able to apply reasoning to assess societal, health, safety, legal and cultural issues?	25	26	10	4	0
7	Are you able to understand the impact of the professional engineering solutions in societal and environmental contexts for sustainable development?	30	25	5	5	0
8	Are you able to apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice?	25	29	11	0	0
9	Are you able to function effectively as an individual and as a member or leader in teams and in multidisciplinary settings?	26	26	10	3	0
10	Are you able to communicate effectively and write effective reports and design documentation and make effective presentations?	28	26	9	2	0
11	Are you able to manage projects and its financing in multidisciplinary environments?	30	25	5	5	0
12	Are you able to engage in independent and lifelong learning in the context of technological change?	25	28	6	6	0

PO. No.	Description
1	Graduates will be able to apply the basic knowledge in mathematics, sciences and engineering fundamentals for solving Problems in mechanical engineering
2	Graduates will be able to apply knowledge, techniques and skills to design mechanical and thermal systems or processes as per requirements.
3	Graduates will be able to demonstrate the ability to design and conduct experiments and standard tests to interpret and analyse data and result
4	Graduates will be able to identify, formulate and design complex mechanical engineering problems in their future profession.
5	Graduates will be able to select and use modern engineering software tools and equipment's to analyse mechanical engineering problems.
6	Graduates will be able to appreciate social and cultural values, asses the health, safety and legal issues and practices,
7	Graduates will be able to understand the impact of professional engineering solution for sustainable development.
8	Graduates will be able to understand the professional as well as ethical responsibilities and norms of different countries.
9	Graduates will be able to function effectively within multidisciplinary team as leader or member.
10	Graduates will be able to communicate effectively within engineering community and society at large by means of report writing, presentation and documentation.
11	Graduates will be able to Demonstrate knowledge and understanding of engineering and management principles for effective project management
12	Graduates will be able to Educate and clearly understand and implement the value of lifelong learning
